FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

The Case of General Porter—Method of Electing the President and Vice-President, Etc.

HOUSE.

WASHINGTON, January 16.—Mr. Sparks, of Illinois, Chairman of committee on Military Affairs, reported a resolution calling on the Secretary of War for information as to the number, rank, name and annual pay of every officer on the retired list of the army. Adopted.

The Speaker then proceeded as the regular order to call committees for the reports of a private nature.

The Senate military committee will hold a meeting to-morrow to consider the case of General Fitz John Porter. The probability is that a full committee will agree to report back the bill to restore General Porter to his rank in the army and to allow him his back pay which will amount in an aggregate to one hundred thousand dollars.

The sub-committee of the House select committee, on the method of electing President, decided to-day to report favorably to the full committee. Mr. Bickwell's joint resolution for the amendment of the constitution as regards the manner of electing the President and Vice-President. The proposed amendment provides that the electoral votes and the fraction thereof of each person voted for as President in any State shall be ascertained by multiplying his entire popular vote therein by a number of the States electoral votes and dividing the product by the sum of all the votes given in the State for the President and the quotient shall be number of electoral votes and the fraction thereof to be assigned to such a person using for such a fraction three decimals only. The resolution also prescribes a manner of counting the votes and determining the questions of contest. It is thought it will be reported favorably to the House by a full committee next week.

Mr. Sandford, of Alabama, from the Committee on Claims refunding, to the State of Georgia $35,000 expended for common defence in 1777, Referred to the Committee of the Whole.

Bright, of Tennessee, chairman of the Committee on Claims, reported a resolution calling on the Secretary of the Treasury for a statement of moneys covered into the Treasury from the proceeds of the sale of lands for direct taxes in South Carolina. Adopted.

The speaker laid before the House a communication from the President of the Academy of Sciences, transmitting the report on the prevention of epidemic diseases. The House then went into Committee of the Whole on the private calendar and took up the bill for the return to Charles Clinton, late Assistant Treasurer at New Orleans, of $5,800 stolen from him in 1871 and refunded by him to the United States. After an extended debate the committee refused by a vote of 72 to 62 to report the bill favorably to the House. The committee then rose and the House adjourned until Monday.

Liverpool Cotton Circular.

LIVERPOOL, Jan. 16.—This week's circular of the Liverpool cotton brokers association says: "Cotton was dull early in the week at rather easier prices; since Tuesday there has been a renewed activity with considerable business at hardening rates and the quotations show an advance. American was in good demand and after fluctuations the quotations are one-sixth d higher. Sea Island continues in moderate request and the quotations are unchanged. Futures were quiet throughout the week. Final sales show an advance of 1-32 d.

Church Dedication.

NEW YORK, Jan. 16.—An Atlanta, Ga., special dispatch says: The formal dedication of the Catholic church of the Immaculate conception in this city was an imposing scene. The edifice was packed with people. Bishops Gross and Lynch officiated, assisted by Catholic priests from all over the South. The marble altar and other appointments of the church are said to be equal to any South of Baltimore.

Rioting Resumed.

LONDON, Jan. 15.—A dispatch from Pesth to Reuters Telegram Company says the rioting was resumed last night at a late hour, and two persons were killed at midnight. Shots were fired at the soldiers from behind some wagons in the street. This looks like a barricade.

Rioting.

PESTH, Jan. 16.—Rioting was renewed in this city last night on a formidable scale, the gas lamps in the street in front of the Casino Club House were broken and shots from revolvers fired at the police. One policeman was wounded and twenty-one of the rioters were arrested.

Trustees Sale.

CINCINNATI, an. 16.—A special dispatch from Ironton says: The Iron and Steel Company's furnace and rolling mills were sold yesterday at trustees sales, to G. F. & F J. Stone, of New York, and J. H. Brammell, of Virginia, for $101,000.

Mortgage Bonds.

NEW YORK, Jan. 16.—Subscriptions for five million dollars first mortgage bonds of the Texas & Pacific Railroad Company closed yesterday. The bids amounted to more than double the amount offered.

Purchasers' Meeting.

NEW YORK, Jan. 16.—It was recently announced that the persons interested in the Louisville and Nashville Railroad, and the Syndicate of New York capitalists had purchased the majority of the stock of the Louisville, New Albany and Chicago Railroad company yesterday. The purchasers met in the Farmers Loan and Trust company and organized by the selection of the following new board of directors: Jno. Jacob Astor, Robert Lenox Kennedy, Henry F. Vail, Samuel Sloan, R. G. Rolston, E. H. Green, E. D. Standiford, R. S. Veech, Isaac Caldwell, W. C. De Pauw, H. V. Newcomb, F. De Funiok and William Whitewright.

The following directors were chosen for 1881: Walter L. Cutting and Edward R. Bell. The gentlemen named own two million of the three million of stock of the road, among them are the president, vice-president, general manager and several of the directors of the Louisville and Nashville Railroad company. The Louisville, New Albany and Chicago road will be run in connection with the Louisville and Nashville road, thus forming a through line direct from Chicago to Mobile, Montgomery and New Orleans, when several additions already detailed are completed.

Corruption Extraordinary.

Boston Globe, Jan. 13th.

Oral testimony, sustained by affidavits, such as was known to the Governor and Council, will be laid before the Legislature and the public, which will prove, indisputably, that in a fair election the Republicans could not have got votes enough to carry a single county, and that they only succeeded in electing the bulk of their representatives by purchasing votes, by intimidation and by illegal voting. The bulk of this wickedness was transacted in the cities, but there also extended throughout the country districts a systematic plan to defeat the popular voice. Mr. Springer's investigations showed that six per cent., or 12,000 voters, were either driven from the polls by threats of discharge from employment or by the use of money. Notwithstanding this fact, the aggregate vote was heavier than ever before, which shows, in itself, illegal voting on a large scale. Nowhere is it charged, even in a single instance, that the opposition cast an illegal vote or hindered free choice. The investigation before the Legislature will show such evidence of fraud as to unseat from ten to fifteen of the Republican members now seated, for, while the Governor and Council could not take cognizance of these frauds, the Legislature can, and will sift the matter to the bottom. Eugene Hale will be one of the members who will be unseated, evidence having been already developed which will walk him out. Depositions from certain towns—sworn testimony—will be brought out, which will startle the country. It will be clearly set forth that a systematic pressure was brought to bear upon voters by employers, and through the influence of a social or business ostracism. In a single town twelve per cent. of the voters were prevented from voting as they desired through fear of loss of employment. Agents of the Republican State Committee rode about and gave fair warning to laborers that they must either vote as directed by their employers, or refrain from voting altogether. From 150 to 175 votes were in this way lost to the opposition in one town. These facts, said Mr. Springer, have been obtained by a canvassing committee of the opposition, whose members went to each individual who had stayed away from the polls. One Republican employer in this manner controlled votes enough to seat two Republican Representatives in the county of Cumberland, and three of his men who dared to vote as they saw fit, were discharged the morning after the election.

In Portland Mr. Springer himself witnessed the purchase of votes by Republican fuglemen, and that he believed it would be shown that hundreds of votes were purchased in that city. An organization of leading Greenbackers went to Augusta Monday to compare notes, and as soon as the members-elect began to arrive, it was ascertained that efforts had been made to buy up enough of these to break up the quorum, and in this way carry out the programme which had previously failed only through the courage of the ovvernor and Council. We determined, said Mr. Springer, to ferret out the agents who were doing Blaine's dirty work, and as a large number of our members had been tempted and openly approached, it was suggested that some reliable, discreet man should put himself in the way of receiving money, in order to fully expose the plot.

Mr. Swan, of Minot, moved and the House ordered that a committee of five be appointed to receive, sort and count the vote for candidates, the same to be sent to the Senate, and the Speaker appointed the committee, who at once proceeded to their duty. The names of Joseph L. Smith and Alonzo Garcelon were the only ones printed on ballots, and the report of the committee showed that Smith and Garcelon had 76 votes. The announcement was greeted with applause, and the report of the committee was adopted.

The enate unanimously elected Mr. Smith Governor, he receiving 18 votes.

Hon. T. B. Swan was the first man to offer himself to Blaine's agent, and a bargain was quickly made. Mr. Moses Harriman, of Kennebunkport, was then initiated in the wily way of getting $1,000 from the agent; and Mr. Springer, in company with Mr. E. H. Gove, chairman of the Greenback State Committee, counted the money three times and found that the agent had paid Mr. Gove $1,005, the money being mostly in bills ranging from $1 to $20 There can be no mistake as to this being a genuine transaction, as the greatest care was taken to track the agent, and it can and will be established beyond question that the trade was made at the instigation of James G. Blaine. The evident purpose of the Republicans was to destroy the quorum of seventy by purchasing members-elect. Mr. Springer gave a vivid description of the scene in the House of Representatives at the time of the organization, he occupying a position near the Clerk of the House. It was the most disgraceful scene, he said, which the country ever witnessed. Men with concealed weapons were present, and it was undoubtedly the purpose of the Republicans to provoke a disgraceful conflict. Paid cliquers filled the gallery, and even occupied the floor, some being admitted by a back window, who howled, jeered, wore their hats, hooted the Clerk and hissed the Governor, and occassionally by way of variation, gave three cheers for Eugene Hale. One man, whom he did not know, but whom he was told was Emmons Blaine, son of James G. Blaine, attempted to wrest the gavel from the Clerk's hand, but failed, owing to the superior muscle of the latter. Assistant Clerk Gibbs' coolness and discretion alone prevented a fracas. In conclusion Mr. Springer spoke of this whole affair upon the politics of Maine. It had settled the fact, he was confident, that Maine was no longer a Republican State, but that the opposition would carry the spring election, and that the victory would be followed by another in the coming fall. The present Legislature would be of an affirmative character, and commend itself to the people by its economy and efficient work. Mr. Springer landed Governor Garcelon, Mr. Pillsbury, General Chamberlain, Judge Virgin and other leading parties to the controversy, and descanted severely upon the timidity of some of the so-called leading Democrats.

MAINE MUDDLE.

JOSEPH L. SMITH UNANIMOUSLY ELECTED GOVERNOR.

General Chamberlain to be Relieved---Smith to be Inaugurated Governor---Other State Officers, &c.

AUGUSTA, Jan. 16.—Acting Governor Lamson, yesterday appointed his staff, which includes Major M. M. Falsom, Adjutant General and chief of the staff General Clark S. Edwards, Inspector General, Doctor Peper, Surgeon General, Major J. W. Clanning, and Doctor Horace Davis, Captain R. W. Black, Colonel J. W. Black aids, Major J. W. French, Military Secretary, H. M. Plaisted, was offered a position as Judge-Advocate-General, but declined.

At 5 o'clock this morning Richards' Light Infantry, of Gardiner, Maine, had orders to appear at their armory at 9 o'clock this morning. Men were gathering there at an early hour. There was no disturbance at the State House last night. No one is to be admitted without a pass to-day.

BOSTON, Jan. 16.—The *Herald's* Augusta special says, the Senate and House met at 10 a. m. In the House the first business taken up was the report of the Committee on Elections declaring Wm. Murray, Fusionist of Vassalboro entitled to a seat instead of Rev. Dr. Nathaniel Butler, Republican. The report was accepted, but a reconsideration was moved because Perry, of Camden, wished a full explanation of the case. Dickey, from that committee, stated that the check list was used at the election and that notice of the meeting was not legal and that one of the assessors passed the ballot box out of the door to allow a sick man in a carriage to vote and that there were sundry other reasons why the action was not legal. A motion to reconsider failed and Murray was escorted to the Executive chamber to take the oath. Murray's admission brings a number of members of the House as present up to 77 according to the count of the tellers. The House voted to send the names of Joseph L. Smith and Alonzo Garcelon to the Senate. The number of votes was 76. The report of the Committee on Gubernatorial votes having been read and accepted in the Senate it was sent to the House where a similar action was taken. Dickey, of Fort Kent, moved to suspend the rules so that the House might fix the time for choice of the four. The candidates for Governor to be sent up to be voted for by the Senate. The motion was carried, and, on motion of Mr. Springfield, the order was adopted fixing the time at 11:15.

Mr. Ingalls, of Wescassett, thought the action unadvisable so long as there was any doubt of the legality of the House. He believed that action ought to be deferred.

Mr. Plaisted, of Lincoln, took the opposite view. He reviewed the situation, and said he believed the time had come for immediate action. He made a severe attack upon General Chamberlain for declining to recognize Lamson as acting Governor. He held the General responsible for the present condition of affairs. At the conclusion of Mr. Plaisted's remarks which had extended past the time set for a choice of candidates, and during which he declared himself resolved to stand by the legality of this house so long as a drop of blood remained in his veins. This sentiment was loudly applauded.

Mr. McLaughlin, of Cornell, by general consent, made a brief speech endorsing his views.

THE VERY LATEST.

BOSTON, Jan. 16—An Augusta, Maine, special says it is reported on good authority that an executive order has been prepared relieving General Chamberlain from his command, which will be served this afternoon. The General has as yet no intimation to that effect.

AUGUSTA, Maine, Jan. 16.—At 11:50 a. m., the House sent a message to the Senate, informing it that Joseph L. Smith and Alonzo Garcelon had been selected as constitutional candidates for Governor. It was moved to receive the message and proceed to vote.

The vote resulted in the unanimous choice of Joseph L. Smith, eighteen votes being cast. Mr. Smith will be inaugurated this afternoon.

BOSTON, Jan. 16.—Special dispatches to the *Herald* from Augusta, Maine, say the action of the Legislature was a surprise to Mr. Smith, who in an interview expressed his opinion that the election would not take place to-day. He felt plainly the gravity of the situation, and while he has an ambition to be Governor of Maine, he wants to be constitutionally chosen Governor, and will discountenance precipitate action. He evidently would have preferred to have had to-day's action postponed at least until the decision of the court was known.

At 1:30 p. m., both Houses took a recess until 4 p. m. The caucus to nominate other State officers will be held at 2:30 o'clock.

THE SUPPRESSED COMMUNICATION.

The Two Macs and their Millions---The Late Railroad Powwow in Raleigh.

Correspondence of the NEWS.

RALEIGH, N. C., Jan. 14.—The following is part of a communication handed to one of your cotemporaries and rejected by it "as meat too strong for babes," as it seems to esteem the public. I would not be considered as reflecting on the clever and courteous editor of the journal referred to, who was the best judge of the matter so far as he was concerned, and certainly did what he thought best, but as the NEWS has always been the people's champion, and has never deemed it necessary to withhold from the masses any information on a subject concerning their interests, I send it to you.

THE SUPPRESSED EXTRACT.

"General attention has been drawn to the very remarkable proceedings which have taken place in Raleigh in the last few days. I will not describe the caucusing, the wire-pulling, the mysterious air, the secret conclaves, which have surrounded the Railroad negotiations, and will come at once to the speech of Mr. McGee, printed by our papers. The monstrosity known as the *Ducktown Branch* seems to have been left out of sight as a subject too impolitic to be discussed even by its friends, Mr. (or Colonel) McGee "boomed" on the

PAINT ROCK BRANCH.

Now no one is opposed to the building of the Paint Rock branch, or the Ducktown branch either. Everybody would be glad to see them or either of them built. But we say that they are not investments so desirable or so profitable that we should use the sheriffs of North Carolina to gather from the laboring masses taxes to invest in building them. The farms which these sheriffs are now selling for the taxes are more valuable than the prospective of the shade of the shadow of profit which the tax-payers may, in some remote future, realize from these railroads, and their high freight and passenger tariffs. Now let us render Mr. McGee's pretty speech into

PLAIN ENGLISH.

Look at the map and you will see that the Paint Rock branch is a connecting link in the Charleston and Cincinnati through line. It is an accident that it runs through a little strip of North Carolina, and not a profitable accident at that. Mr. McAden represents the railroad interest coming up from Charleston and ending at Asheville. He looks across the 44 miles of unbuilt railroad, and says to Mr. McGee, who represents the Cincinnati railroad interest coming down to Paint Rock, at the northern end of the "missing link:" "McGee, old fellow, if that 44 miles of gap were filled in, our Cincinnati and Charleston through-line would pay well, and your road and mine would become profitable. I wish you would build it." Mr. McGee casts his eye over the intervening mountains, and tunnels, and bridges necessary, and finding the $2,000,000 required to fill in the gap rather inconvenient to raise, replies: "That's so, McAden; it would be a bully thing for us, and the gap ought to be built, but we really haven't the money just now. Can't *you* build it?" Finally they put their heads together, and seeing the Western North Carolina Railroad coming in at right angles to the great Cincinnati & Charleston through line at Asheville,

A BRILLIANT IDEA STRIKES THEM.

True that the filling in of the gap for the Charleston and Cincinnati through line can't benefit perceptibly the W. N. C. R. R. which runs from Salisbury to Asheville, and is an east and west line, but a people who have been meek enough to be sheared for four years to build through the Swananoa gap to get to Asheville, when a better railroad to Asheville *via* Hendersonville was being built without cost to them, held out great inducements. They post down to Raleigh. Mr. McGee speaks somewhat to this effect, Mr. McAden, holding his hat and saying "Amen" at the proper places. "Taxpayers of North Carolina *we love you.* You are very dear to our hearts. There is about 44 miles of railway, known as the Paint Rock branch, which is a necessary link in our great Charleston and Cincinnati through line. Indeed it is very necessary to us. It is just the prettiest little investment for your spare cash that you ever saw. There are oceans of profit in it. Colonel Mulberry Sellers never dreamed of such a speculation. There is nothing mean about us—Brother McAden, and me. We represent millions of capital and could have just sneaked in and have built this connecting link between Bro. McAden's line and mine and not have said a word to you, but it is such a good thing we have saved it for you to build it." And, sir, what do you think the level headed tax-payers of North Carolina will say to Messrs. McAden and McGee and their millions of railroad capital. They will say to them. "We thank you kindly sirs. If this investment will pay so well, we are sure you deserve to have it as THE FIRST DISCOVERERS. As for ourselves, our very moderate circumstances render the purchase of food and clothing for our wives and children, and other necessary household expenditures the very best investment of our spare cash." Do you think that will stop the building of the Paint Rock branch? Not at all. It is necessary for the Cincinnati and Charleston through line to have it and they are bound to build it themselves. As they are to have the profit let them bear the expense. "They who are to dance should pay the piper."

THE ABOVE EXTRACT

was clipped from the communication, and I am far from attaching any blame to the editor who had a right to do with his own paper as he pleased, and I am frank to add there is not the slightest suspicion that he is one of those editors who have accepted retainers to advocate the continuance of the subsidy. Like yourself, he seems to "have no policy to advocate in opposition to the interest of the people." But somehow the NEWS has always been disposed to put the fullest confidence in the popular judgment, and keep back no information on matters that concerned the people, and it is therefore sent to you. It must strike the public as ludicrous that Messrs. McAden and McGee (the latter a non-resident) should come all the way to Raleigh to advocate a railroad because its building would benefit the tax payers of North Carolina! It is much more reasonable to believe that the building of said railroad is to benefit Messrs. McAden and McGee and their railroad lines, and that the only part of the Paint Rock branch that will fall to the tax-payers will be the expense of building it. The profit, if any, is for others.

Notwithstanding the continued and great reluctance of the friends of this heavy Railroad taxation to having it discussed, and the choice epithets and charges they have for those who persist in saying that the people ought to know something about where so large a portion of their taxes go, there are men who propose that the people *shall* have the facts, and that the matter shall be discussed fairly and on its merits, and I have the honor to subscribe myself ONE OF THEM.

ON TO RICHMOND.

WHAT SALA SAW ON HIS WAY TO THE CONFEDERATE CAPITAL.

Ladies' Day in New York---Street Sailing and Slush---Types of the Colored Man.

[Extracts from Mr. Sala's Letters to the London Telegraph and New York World.]

RICHMOND, Va., January 4.—Long, long ago—when the voice of the banjo was young in the land and Mr. Pell the "Original Bones," was only just beginning to instruct the small boys of England in the art of making a novel and diabolical street noise—in the days when we first eagerly hastened to the lyrics which told of the joys and "ober de mountain" of the cheery life of the boatman "sailin' down de ribber on de Ohio;"—in those far-off days of genuine Ethiopian serenading I remember to have heard a simple strophe reciting how

A way down South
A nigger in the water
Was standin' in a mill-pond
Longer than he oughter.

Full five-and-thirty years had I been waiting to see the nigger standing in that mill-pond. I saw him in all his glory at Guiney's in the State of Virginia, the day before yesterday.

But I must tell you how I came to Guiney's on my way from New York to Richmond. I own that for some days past the potential African "standin' in de mill-pond longer than he oughter" had been lying somewhat heavily on my conscience. My acquaintance with our dark brother since I arrived in this country has not only been necessarily limited, but scarcely of a nature to give me any practical insight into his real condition since he has been a free man. Colored folks are few and far between in New York, and they have never as a rule been slaves, and are not even, generally, of servile extraction. In Philadelphia they are much more numerous. Many of the mullatto waiters employed in the hotels are strikingly handsome men, and on the whole the sable sons of Pennsylvania struck me as being industrious, well dressed, prosperous and a trifle haughty in their intercourse with white folks. In Baltimore, where slavery existed until the promulgation of Mr. Lincoln's proclamation, the colored people are plentiful. I met a good many ragged, shiftless and generally dejected negroes of both sexes, who appeared to be just the kind of waifs and strays who would stand in a mill-pond longer than they ought to in the event of there being any convenient mill-pond at hand; but the better class of dark folks, who had been domestic slaves in Baltimore families, seemed to retain all their own affectionate obsequiousness of manner. On such terms were the Muscovite nobles and their serfs when I first went to Ruasia. Now all is changed in that respect. The emancipated moujik is usually a sulky fellow, and when he dares he is insolent. Again, in Washington the black man and his congeners seemed to be doing remarably well. I saw stalwart negro policeman doing duty in Pennsylvania avenue; and at one of the quietest, most elegant and most comfortable hotels in the federal capital—Wormley's Hotel—I found the establishment "run" by Mr. Wormley, a colored man of gentle manners and great administrative abilities, all of whose employees, from the clerks in the office to the waiters and chamber maids, and colored. At Wormley's, perhaps, the negro and negroist were seen at their very best. They had been slaves or were the children of slaves. I found all the colored people with whom I came in contact not only invariably civil and obliging, but in many cases very bright and intelligent.

But these were not the mill-pond folk of whom I was in quest. They were of the South, as an Irishman in London is of Ireland, but not in it. A "way down South" was the real object of my mission; and in pursuit of that mission I came, on the 2d of January, "On to Richmond." The day following the festive first is known as Ladies' Day. On the second the leaders of fashion who have undergone so dire a martyrdom in sitting to receive male visitors throughout the first, have their "day out," and make a round of visits to each other, mutually exchanging experiences, comparing notes and ascertaining how many new and eligible additions in the shape of British peers and baronets, silver-mine millionaires and Wall street quadrillionaires each lady has made to her visiting list. The British baronet is usually pretty plentifully on hand. The British nobleman just at present is rather scarce in the market, and his absence is accounted for by his inability to obtain any rent from his starving tenantry and consequent lack of funds to pay his passage money to New York. The Italian count is not in much request, and the German baron has too frequently been found "a fraud;" although Italian tenors and German pianists are always sure of a hearty welcome, even if they do not happen to possess handles to their names. If there ever existed a people who had gone music mad that people are the Americans.

Ladies Day in New York was a drippingly wet one, and it was through a fine Black Sea of slush that our carriage had to flounder and splash at 9:30 at night on our way to the Jersey City ferry. I feel tolerably certain that the New Yorkers will not be very angry with me—nay, I cannot help feeling that they should be on the contrary grateful to a stranger for mentioning that the streets of the Empire City are throughout the winter in an inconceivably neglected and filthy condition. Our London omnibus companies know something about the art of salting the streets in snowy weather, but in New York the practice has been brought to a degree of perfection unknown in other capitals. It is scarcely worth mentioning, perhaps, that street salting has been explicity prohibited by the Legislature of the State. There are so many things which are prohibited by the Legislature—cock-fighting, for example, a sport which still goes merrily on—that the multiplicity of prohibitive statutes is perhaps too much for the popular memory. The ordinances, if any exist, touching the cleaning of the streets seem in particular to have slipped the remembrance of those intrusted with the duty of looking after them. When a thaw takes place no combined efforts of any kind are made to cleanse the streets; and when heavy black frost supervenes on the thaw—which with unpleasant frequency is the case, the winter in New York being subject to continual mutations—no systematic action is taken to clear the pavement from ice, much less to sand it. The consequence is that the pedestrian is perpetually performing involuntary "cellar-flaps" and unwelcome back somersaults, ending in unprepared for "breakdowns," conducive no doubt to the delectation of the small boy who is passing, and of glee to the surgeon to whom broken bones in others is as honey, and somebody else's fractured skull a thing of great price, but which are productive only of imperfect pleasure to the man who wishes to perambulate the streets of a great and most interesting city without being tripped up by the treacherous ice or foot-soaked by the deceptive slush. Why not imitate the wisdom of the natives? Simply for this reason—that is is difficult, if not impossible, to study the manners and customs of the people of a gigantic metropolis by merely passing to and from in or over their thoroughfares by means of tramway cars and Broadway stages. The New Yorkers, it is but fair to observe, grumble much more bitterly than I have ventured to do.

The distance between New York and Richmond is certainly under four hundred miles, and in Great Britian an express train would have accomplished such a journey in less than eight hours. We made the run in thirteen hours and a half, which I consider to be, on the whole, very good time. Their railway system is a very different one from ours, and a good deal of time is often unavoidably lost in shunting from one line of railway to the other. Taken altogether, the arrangements leave little ground for complaint, and the improvements in transit and traffic which have taken place since I came here last are really wonderful. It used to be a standing ground of complaint against the constructors of the permanent way on American railways that they did not "fish their joint;" but this technical grievance has now been definitely abolished, and the almost universal introduction of steel rails has added much both to the safety of the trains and the comfort of those riding in them. The only serious annoyance to which the traveller is subjected on a lengthened journey is that arising from the frequent collection of tickets. The "conductor" or guard seems to be always "at you." For example, between New York and Richmond I was asked to show my ticket, or rather to pay fragments of fare—for circumstances over which I had no control debarred me from booking right through—first at Jersey City, secondly at Philadelphia, thirdly at Baltimore, fourthly at Washington and fifthly at Quantico, a little riverside station between Alexandria and Richmond. Dozing off into slumber, composing yourself to read, subsiding into meditation and the enjoyment of a cigar—it was all one. The inevitable conductor, a glaring lantern in his hand, ruthlessly woke you up or implacably interposed between yourself and your cogitations and demanded your ticket. This is not done with the slightest wish to cause annoyance to travellers, and is due only to some mysterious clearing-house exigencies. It may be that in the course of such a journey as I undertook between New York and Richmond roads belonging to half a dozen different lines of railway had to be travelled upon, and each company had its own conductor, who was bound to look after the interest of his company by collecting the tickets or the equivalent cash from all passengers passing over that particular line. The result is not the less grievous, and it sometimes approaches the verge of the distracting; but there is much consolation in knowing that, come what may you are not compelled to leave your Pullman car. The car in which I was a passenger was good for travelling in as far as Augusta, in Georgia—whither I am going presently—a distance of 500 miles from Richmond.

IN GENERAL.

Harvard University Library has received nearly 150,000 additional volumes since 1833.

The Comte de Paris expects to complete the sixth and last volume of his work on the Civil War in America next year.

The first book published in America was printed in the city of Mexico, December 13th, 1854, and was used by the Spanish priests as an aid in converting the natives.

The reading room of the British Museum, a vast circular apartment, has been illuminated by means of the electric light with such good effect as to render the smaliest point as legible as by daylight.

The New York *Congregationalist* takes up the cudgel against the free exchange of newspapers, and says that there is no more reason why newspapers should exchange publications with each other than there is for hardware dealers exchanging jack-knives.

For twenty years Dr. Julius Schmidt of Athens has been at work upon an immense map of the moon, which shows 32,856 craters and ring-like formations on the luna surfaces and 348 rifts and clefts.

The name of Charles V., with the date Bologne, 1517, has been discovered, scrawled with a lead pencil in his own handwriting, on the back of one of the Coltonian manuscripts. It thus appears that the lead pencil must have been invented at a remote period.

Dr. J. G. Holland, to secure a complete change of surroundings and atmosphere when he wishes to alternate work upon two books he is comprising at once, keeps each manuscript in a separate apartment, and his labors on each are performed in their respective chosen places.

One of the latest novelties attempted in Germany is the substitution of paper for wood in the making of lead pencils. An adhesive liquid is used for steeping the paper, which is then rolled to the required thickness around the lengths of lead. A coloring applied to the paper after it is thoroughly dry gives it the appearance of an ordinary cedar pencil.

Answer this.

Did you ever know any person to be ill, without inaction of the Stomach, Liver or kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure.—Ask your neighbor this same question.

Much of the pork killed in this section spoiled, owing to the unusually warm weather. Most of the fattening hogs, however, were killed on last Tuesday night directly after the sudden change in the atmosphere. Many of the farmers are still apprehensive, though, lest the weather will not remain settled long.—*Southern Home.*

We regret to learn that the Salisbury Male Academy was burned down and entirely destroyed on Monday evening. A considerable addition to it had just been built and other repairs made, which were about completed at the time of the burning. The origin of the fire is unknown.—*Statesville American.*

Vigor of Mind and Body.

Every person would have more vigor of mind and body, and mental clearness were they to use a daily diet of unbolted wheat flour. Mix with the flour dry, Dr. Price's Cream Baking Powder, stir in pure water, from a soft batter, bake in gems or buscults, and the result will be the most nutritious article of food that can be made.

INCREASING DESTITUTION AND DISTRESS IN IRELAND.

Appeal of Lord Mayor in Behalf of the Suffering---People Responding ---Movements of Parnell.

QUEBEC, January 13.—The Mayor has the following from the Lord Mayor of London: "The distress in Ireland is increasing. You are urgently requested to send relief."

The following is from the Lord Mayor of Dublin: "Distress increasing. Aid urgently requested."

A LICK AT BRITAIN.

PARIS, Jan. 13.—The Ultramontane newspaper, *Universe*, has a violent article on the Irish crisis. It represents the English Government as absorbed in African and Afghan affairs and heedless of the sufferings of the Irish, and speaks of the Duchess of Marlborough's relief fund and foreign subscriptions as utterly inadequate to alleviate the popular distress.

CHICAGO'S CONTRIBUTION.

CHICAGO, Jan. 13.—The United Irish Societies of Chicago, fifty in number, voted unanimously at their Central Council to-night, that all the funds raised by their exertions should be sent to Joseph Begger, M. P., W. H. O'Sullivan, M. P., and to Patrick Egan, Esq. 62 Middle Abbey street, Dublin, the Treasurers of the Land Reform League of Ireland, for distribution according to their discretion, acting on the principle that it was right to do the reverse of what the English Government and their organs advised. They also voted unanimously to turn out and escort Parnell on his arrival in Chicago

THE MANSION HOUSE APPEAL.

LONDON, Jan. 14.—The response to the London Mansion House appeal in behalf of Ireland not having proven adequate to the needs of the distressed, the executive committee of the Home Rule Confederation have determined to organize a comprehensive system of sub-committees for the relief of the poor.

[illegible] CORRESPONDENCE OF THE NEWS.

Correspondence of the News.

SWIFT CREEK, Jan. 15.—There has been idle moments in your correspondent's life, and I am just now enjoying one of them following a plow. I do think it is just one of the laziest of all lives, to stand behind the horse and see him stick the plow in the earth and I walk along behind and hold two cotton lines in my hands, but then you know there is a kind providence with the farmer whom, I am sorry to say, has but little use for an editor much less for a lawyer.

There is so many aspirants for the Gubernatorial chair that Swift creek, in our only school house decided last eve to put in nomination "Kindrick Goodwin," who was born in Wake county in 1790, a gentlemanly farmer of small means, but who has never forgotten just what we need in "the intelligence" of our Legislatures, how to hunt foxes instead of talking in a court house for money.

There are things I could say in favor of Colonel Thos. M. Holt, which would make him (if he is not already) the most popular of the aspirants for that high seat of honor in Wake county. I do not allude to his saving our State Fair and other things identified with Raleigh, but simply to his gift to the members of the "Raleigh Light Artillery" who were mamed at the Charlotte Centenuial. Joel D. Whitaker was at that time orderly-sargeant, and can tell the amount. I know there was only one man that paid in the same amount. Mr. Holt was a stranger to the members of the battery, but as he said "we are all North Carolinians and I am able to give it." I am sure there is not a farmer or mechanic who will not vote for Tom Holt, if he is nominated.

I thought you said Dick Fulgham, of the Greensboro *Patriot*, was going to make it a "rousing paper," I am afraid he has made the acquaintance of Walter M. Doo. He had better quit the newspaper business.

If you expect your correspondent to travel around in such weather as this and to have to tell the truth at all times, you had better just get some member of the Maine Legislature to take his place. S. T. G.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

SATURDAY, JANUARY 17, 1880.

THE Jacksonville *Press* says that Mrs. Grant and her lady friends, having tasted the fruit presented them in that city by the Florida Fruit Growers' Association, "unhesitatingly stated that for the first time in their lives they had the pleasure of tasting what may be correctly termed oranges." Of course, after this the Floridians are happy.

IT is not surprising that there was doubt and difficulty about the organization of the California House of Representatives, when we learn that it is composed of thirty-six Republicans, seventeen workingmen, fourteen Democrats, two new-constitution-Republicans, three workingmen and new constitution, two new constitution-Democrats, three workingmen-Republicans, the union and one new constitution.

THE Treasury now holds, on account of national banks to secure their circulation, $366,954,050 in United States bonds. The banks deposited $879,550 in bonds with the Treasury during the week ended Saturday last, and withdrew $940,500. The receipts of national bank notes for redemption for the week ended Saturday were $647,000, against $2,369,000 for the corresponding week last year.

AT Cleavcland, O., Friday, a deed was placed on record, executed by the late Leonard Case, some time before his suicide, in which he donates property in the centre of the city, valued at $1,5000,000, for the endowment of an institution to be called the Case School of Applied Science. In the institution is to be taught mathematics, mechanical and civil engineering, chemistry, mining, modern languages and similar branches.

MOHAMMED JAN, leader of the revolt against the British in Afghanistan, is not whipped yet, evidently. He is maseing troops at Ghaznai, south of Cabul on the road to Candahar, and his actions indicate that he intends to make a vigorous and aggressive campaign. He has confidential agents among the tribes north of the Hindu Kush mountains, and they are doing effective work in inciting these tribes against the British. Jan has called upon all Afghan patriots to rise and fight their "common enemy" the British, and it is very plain that Beaconsfield is not out of the Afghan woods yet.

THE recent lease of the Georgia Central railroad by the Louisville and Nashville line completely fences in the Cincinnati Southern for the construction of which Cincinnati expended $18,000,000. It now becomes a mere local line to Chattanooga instead of the great trunk route to the Atlantic seaports it was intended to be. There is no present outlet for the road, and Cincinnati finds that it is likely to prove a white elephant. The superior energy and activity of the Louisville railroad men have won for that city the object upon which Cincinnati has lavished her millions and Louisville is as much elated as her business rival is depressed.

THE new Dictator of Peru, General NICHOLAS DE PIEROLA, is a man of considerable note in that country, and one who is likely to play an important part in its future history. Although a young man—he is only thirty-nine years old—he has been engaged in at least a dozen revolutions against the government, once succeeding in becoming Minister of Finance. He is aristocratic rather than Democratic in his ideas, and as he is married to a daughter of the famous Emperor Iturbide, of Mexico, it is shrewdly surmised that what he is aiming at is the overthrow of the republic and a throne for himself. His position of Dictator will enable him to play the game with ease.

WHILE we are enjoying a temperature of midsummer mildness, Minnesota is shivering under hyperborean weather. Around Marshall, Minn., the snow blockade continues. Every cut in the road is full of snow, and trains find it impossible to run at all. All trafic on the Chicago and Dacota, and Winona and St. Peter roads have been abandoned. West of Canby the stations have given out of wood and coal on account of this blockade, and great suffering is threatened. An attempt has been made to remove the snow with snow-plows, but in vain; it is too deep—ranging from eight to twelve feet—and too compact to be moved. The thermometer still ranges from 28 to 29 degrees below zero, and the prospects for an early resumption of business is not at all promising.

THE white inhabitants of Alaska do not highly value Mr. Hayes's expressions in behalf of law and order. They would prefer that he should talk less and do more. For months they have been almost at the mercy of the whisky-drinking baties. There is no government in the territory, and the only protection afforded the whites is the vessel of war Queenstown, stationed at Jamestown. Murders are being committed throughout the territory by the Indians, who are crazed by the whisky to be obtained in any desired quantity at Sitka. No effort is made to stop this traffic, and the appeal of the settlers for adequate protection falls upon deaf ears at Washington. There seems here to be an excellent opportunity for Mr. Hayes to put some of his "law and order" theories into practice.

THE late great editor of the London *Times*, Mr. John Thadeus Delane, died recently, aged 62 years. His father was for a long time the financial manager of the London *Times*, and the son, after completing his university education at Oxford, and being admitted to the bar, became assistant editor of the *Times* under Mr. T. Barnes, and on the death of the latter in 1841 succeeded him as editor-in-chief. In 1877, Mr. Delane closed a hard-working journalistic career of thirty-seven years by retiring, on account of poor health, from the service of the *Times* to private life; and a correspondent of the *Tribune* penned at the time the following high eulogy of his ability and influence;

'In truth, Mr. Delane has wielded for thirty years a greater power than most kings or ministers who have been on the stage during that time. It has been constant. He has not gone out of office with cabinets, nor disappeared with changing dynasties. It is nothing to say that his authority in England has far exceeded that of the Sovereign. It has equally surpassed that of most ministers; it may be compared with that of two or three premiers, who have remodeled some of the institutions of the country, and modified its constitution. And in comparing it, it must be borne in mind that there have been a dozen or more administrations, but Mr. Delane has never ceased to edit the *Times*."

THE LATE COL. WM. F. MARTIN.

The death of this gentleman, which was announced on yesterday, will be generally read with sorrow. He was born at Elizabeth City, at which place he died on the 13th instant, in the fifty-ninth year of his age.

Colonel Martin was the son of William Martin, and brother of the late General James G. Martin, the latter distinguishing himself in the Mexican war, as well as participating in the late conflict between the States. Colonel Martin graduated about the year 1843, and, choosing the law as his profession, soon took high rank at the bar. He married Elizabeth McMorine, of his native town, a lady possessing those qualities of attraction peculiar to her sex—one who proved to be all that the devoted husband wished her to be, in the relations of christian, daughter, wife, mother and friend. The fruits of this marriage are several children, of whom the parents were proud, and to whom the widowed mother can point as her jewels.

Colonel Martin was often complimented by his party with its votes for various positions. In 1846 the Democrats of Pasquotank county voted for him for the House of Commons, and the members of his party in the Legislature of 1848 supported him for the office of Solicitor of the Edenton judicial district. In the latter election the present Chief Justice was successful. In 1851 he was supported for Congress, against Hon. David Outlaw. Though prominent in his party, he did not seek office, and for several years engaged in politics only to the extent of taking that interest in such matters, which is the duty of every good citizen. In 1856 he was one of the electors who cast the vote of the State for James Buchanan for President of the United States, and in 1860 he shared the fate of his party in his native county, and was defeated for a seat in the lower branch of the General Assembly.

The war breaking out, Captain Martin was ordered with his company, the "State Guards," of Elizabeth City, (afterwards Company L, 17th North Carolina Troops—7th Volunteers) to the coast. Promoted to the colonelcy of the regiment just mentioned, he was generally beloved by his command. On the 29th of August, 1861, Forts Hatteras and Clark, after a terrific bombardment, surrendered to the comoined land and naval forces under General Butler and Commodore Stringham, and Colonel Martin was carried to Fort Warren, in Boston Harbor, where he was kept for several months. On being exchanged he reorganized his regiment and again entered active service, in which he continued until the close of the war.

Colonel M. had for years devoted his time and talents to his profession, in which he was successful. Distinguished for his public services, he was also known for his private virtues. He was public-spirited, charitable, enterprising and kind in his temper and disposition. After a well-spent life, he has gone to his last sleep, mourned by all who knew him.

"The boast of heraldry, the pomp of power,
And all that beauty, all that wealth e'er gave
Await alike th' inevitable hour—
The paths of glory lead but to the grave."

Louisiana's Vote on her Constitution.

A despatch from New Orleans, dated January 1st, states that the board of canvassers that day completed the official count of the vote for the new constitution. It was adopted by a majority of 59,148. The debt ordinance was adopted by 10,487 majority. The test question of the integrity of the franchises of the Louisiana State Company was, therefore, handsomely endorsed by the citizens of New Orleans, after an experience of the past twelve years of strict honesty and exact fairness. The particulars of its next (the 117th) drawing may be had by addressing M. A. Dauphin, New Orleans, La., or same person at No. 319 Broadway, New York City, N. Y.

Kearney's advice to all parties is to "pool their issues." We think a good deal as he does, that we should bury the dead issues of the past. As a healing compound for all issues, sores, wounds &c, there is nothing equal to Henry's Carbolic Salve. Beware of counterfeits.

Why Will You

Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

Mrs. Winslow's Soothing Syrup.

Rev. Sylvanus Cobb thus writes in the Boston *Christian Freeman*:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge. In our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as bright as a button. And during the process of teething, its value is incalculable. We have frequently heard mothers say that they would not be without it from birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggist, 25 cents a bottle.

For the News.

Our Lilly of Love.

Our babe! Alas! she is no longer ours,
God sent his silent gardner one day
To cull a posy of earth's sweetest flowers,
Moving at leisure 'mong loves brightest bowers,
He paused to pluck one lily from the sprig.

The tender petal closed around the fair,
Sweetheart, all innocence and purity;
We saw our blossom drop, and pleaded "spare,"
A soft voice, floating southward through the air,
Breathed, "Be resigned; it is the Lord's decree."

Meekly we knell beside our flowert's bed,
Hand-linked in tearful trouble half inclined
To murmur at the mandate that sped
With lightning swiftness through our hearts and spread
Death's dearth in all. Anon we grew resigned:

Resigned, because we knew she was not lost;
Resigned, because we knew our bud of love
When the dark boundry of death was crossed,
And God had wiped away the clinging frost
Would bloom for ever in heaven's bower above.

Here is a ringlet of our darling's hair,
Soft as the softest silk, and golden bright
As sunshine shining through summer air;
An i here a likeness of our flow'ert fair
Who blossoms now in realms that know no night.

The days are dull, however bright the sun,
And we are mournful now who erst were gay:
But we will hope until our lives are done,
That we in heaven may see our little one
Blossoming on a pure, celestial sprig.

They stood all alone and 'twas late,
And deep shadows were cast by the gate,
When her very bad brother, the scamp,
Climbed the post and lighted the lamp;
And the meeting adjourned without date.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible diseased poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs WEEKS & POTTER: Gentlemen—I cannot refrain from ad ing my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myse f completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, MASS., June 10, 1878.

Medical.

Rev. Dr. Mangum, Prof. Univ. of N. C. I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.) It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va. It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient without nausea.

Rev. B F. Woodward P. E., Na. Conf. About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va. It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in famille from indigestion I use it and recommend it.

Editor Richmond Christian Advocate. This remedy is of tried virtue. I have seon Dyspepsia cured completely by it. It seams to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of INSURANCE very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash; balance on reasonable time.

LOCAL BRIEFS.

——Remember the poor.

——No Mayor's court yesterday.

——Revenue receipts to-day $960.09.

——We had spring-like weather yesterday.

——No marriage licenses were issued yesterday.

——Whooping cough has made its appearance in our midst.

——Raleigh's rollicking rink rollers rolled rapidly round Dodd's hall last night.

——Col. John N. Staples, of Greensboro, is in the city stopping at the Yarboro.

——Bison Williams will be in Raleigh next Friday night and may be seen at Tucker Hall.

——Hon. John Manning arrived in this city yesterday, and is booked at the Yarborough.

——The annual meeting of the State Grange will be held in Charlotte on Tuesday, February 3d.

——Samuel J. Fall, of England, arrived in this city yesterday, and is the guest of Geo. W. Wynn, Esq.

——The remains of the late P. C. Walker, Esq., were conveyed to Mebanesville yesterday evening for interment.

——Wilmington is acting nobly in behalf of the Irish sufferers. Cannot our people do something for this cause of humanity?

——Pastors of the different churches are requested to hand in to-day any changes that may take place in their pulpits for Sunday.

——Jefferson was listened to by a crow led house last night, and was all that is claimed for him, which is too much for us to express.

—— A drove of very fine cattle was brought to this market yesterday, and were purchased by Messrs. W. R. Crawford and James H. Jones.

——A bay mare was stolen from the stable of Mr. J. S. Bryan on the night of the 15th. Read his advertisement in another column and secure the reward.

——Complaints are made of the condition of the pump on east Martin st., a little west of Swain. The trouble is thought to arise from its depth. It ought to be "looked into."

——The name of Stronach passes correct in this city for everything usual to a first class family grocery establishment. It is hard to say which is the best the men or the groceries, where all do their part so well it would be invidious to particularize.

——The Dev. Dr. Smith preached again in the First Presbyterian church last night to a large and deeply interested congregation. He preaches again tonight, and will not fail to attract the attention of all who attend his services. He is one of the most eloquent divines in the State.

——The lecture of Dr. Mendelsohn at Tucker Hall on the night of the 20th will be the first lecture ever delivered in this city by a Jewish Rabbi. The Doctor is a learned theologian and eloquent orator, and his lectures will no doubt be largely attended. Tickets for sale at Heartt's Drug Store. Admission 50 cents. Reserved seats 75 cents.

——The concert given by the Sunday School scholars at Person street Methodist church last Thursday night was largely attended, and all expressed themselves as being pleasantly entertained. A nice little sum was realized for the school. Great credit is due to Messrs. Thomas Hampson, V. Ballard and R. C. Redford for the indomitable interest manifested in its success.

Railroad Inspection.

Colonel Robinson, President, and Major John C. Winder, Superintendent, went down the Raleigh & Gaston railroad on yesterday in their private car, on an inspecting tour.

Good Beef.

We saw on our streets on yesterday a drove of unusually fine beeves brought to market by Mr. Reeves, of Alleghany county. Some of them weighed sixteen hundred to eighteen hundred pounds gross. They were purchased by W. R. Crawford, Esq., who will serve them at his inviting stall in the market. For a few days at least we will have the best "Baltimore beef" ever offered in our market.

Supreme Court.

The Court opened yesterday morning at 10 o'clock; all the Justices were present.

The consideration of appeals from the Second District was resumed and causes was removed as follows:

John E Boyett vs. Thaddeus Vaughn, from Halifax; petition to rehear; argued by Thos N Hill for the petitioners and Mullen & Moore for the respondents.

W J Jones et als. vs. Adolph Cohen et als., from Craven; argued by Green & Stevenson and W W Clark for the plaintiffs, and Reade, Busbee & Busbee and Manly & Son for the defendants.

Court adjourned until 10 o'clock this (Saturday) morning.

The Law School.

Judge Strong has added the important and interesting feature of most courts to his law school. The following question has arisen, and is being considered by eminent members of the Raleigh bar:

"A" executes and registers a deed constituting "B" trustee for creditors named in the trust. "B" refuses to accept, and "A" makes another deed conveying same property for same purpose, constituting "C" trustee. "C" makes a *bona fide* sale and the property being half its real value. The creditors bring an action in the nature of a bill in equity to set the sale aside. Can it be done?

The class will discuss the above question. The argument will be opened by W. E. Daniel, of Weldon, and the opposite view by ——— Jones, of Raleigh. The other members of the class will follow in their regular order.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.

GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

Distance Lends Enchantment!

Maud had a fine figure, good face and pretty name. One should see her at a distance. When she began to talk, you realized that she never used SOZODONT. Her breath was unlike the breezes of Araby the blest.
